

S.O.S Frog messages 😊

Aislin O'Broin

I think you should help to save our rainforests around the World, because you will never know when their not going to be there, so act now and save our planet or don't act at all. So which is it now or never? Act now and save our Planets rainforests.

Charlotte Ball

We need to save the rainforest its natural beauty should be seen by the future generations! People's lives will be changed forever!

Ciaran Grattan

Every tree we cut down makes climate change a bigger threat, save the rainforest, please it's not too late to save it.

Disney De Silva

Have hope and save the rain forest. Save all the creatures and keep the utter beauty that lies within it.

Ellen Collinson

We need to save the rainforest... If we don't peoples lives could be changed forever, its natural beauty should be seen by future generations

Emily Jackson

I would save the rainforest because there are lots of animals and ancient tribes living in the rainforest and once the rainforest gets destroyed then they will be stuck and will die. I would also save the rainforest because it is beautiful and some parts haven't even been explored yet and there are so many species of animals in the rainforest that have not been discovered yet.

Hayley

We need our rainforests for all sorts of uses!
SAVE THE RAINFOREST'S!!!! Please think of the future...

Caitlin Veal

Think of all the people and animals that live in the rainforest need it to survive. Think of all the children that will never get to experience the amazing animals that live there. Save the rainforest, and the environment.

Nicole Fiddes

Think of all the plants and animals the next generation will never see, we can stop this by saving the rainforest and all the creatures inside it.

We need to save the rainforest... If we don't peoples lives could be changed forever, its natural beauty should be seen by future generations!

Rachel Knox

We depend on our rainforests, Help save it!

Sophie Pyper

We must save the rainforest. Our future generations depend on it. We cause too much pollution when we cut down the rainforest. The world will end early than it should if we carry on.

Dayna Howard

I think we must save the rainforest because the rainforests are beautiful. You wouldn't like it if your home was torn down by other people, so why should the animals have to suffer losing a home. Yes we need the trees for paper but the rainforest is special to us. We should NOT kill the rainforest because all the animals will soon have no home. Please help us stop this from happening.

Sammy Petch

I think the rainforest is important because you never know how long something's going to last for so why destroy it when we should be preserving it? Remember were not only some trees were destroying animals homes & tribal people homes? Please help save it, for the benefit of everyone.

Sophie Doyle

The rainforest is a beautiful and amazing place! It has been on this earth for more than 1 million years! Older than anyone alive! Why would you want to ruin one of the most glorious wonders of the world?

Aaron Cooper

I think that the rain forest should be because 1000 s of tree are being cut down a year and where are the animals.

Alison Mckeen

I think the rainforest should be saved because a lot of animals live there. And I wouldn't like to see it getting cut down. (:

Alistair Reynolds

I want to save the rainforest because it contains over fifty species of our natural wildlife

Ashleigh wilson

I think the rainforest should be saved because its a beautiful place and lots of amazing animals live there (:

Caitlin Fleming

I think the rainforest should be saved because its not just a rainforest its a home tp the animals and plants

Cameron Williams

I think that they should stop cutting down the trees because there is alot of animals and diffrent kind of species and where are the tribes going to live.

I think the rainforest should be save beca use every year thousands of trees get cut down a year, That means all the animals that live in the trees like monkeys will loose their habitat and will die because they have no where to live.

Ishara Simpson

I would like to save the rainforest because of the Animals.

Jack Eden

I think that every one should join because everyday there's 30 trees cut down per a worker and they are taking away the size of Wales's everyday. Think of your families' future.

Liam Cook

I think the rainforest should be save because every year thousands of trees get cut down a year, That means all the animals that live in the trees like monkeys will loose their habitat and will die because they have no where to live.

Matt Adams

I want to save the rainforest because it provides 40% of our oxygen

Max Cowan

They should stop cutting the rainforest down because their destroying loads of endangered animals homes also the size of Wales is cut down every day!!!

Megan Walsh

I would like to save the rainforest because 50% of living animals are there

Meghan Thompson

I want to save the rainforest because of all the plants and animals that live there

Reece Threlfall

I think that we should stop cutting down the rainforest because it is destroying the environment.

Shannon

The Rainforest should be saved because there are lots of animals that live there. If you destroy the Rainforest you are destroying their homes and their lives.
